

Library and Knowledge Services Newsletter

Issue 7 | November / December 2021

Our newsletter will keep you up to date with new resources and service developments as well as news from our team members.

Literature Searches

In September and October we completed **31** searches on a variety of topics including:

- Holistic care assessment in palliative care
- Differential diagnosis for thumb and wrist pain
- Schema therapy for clients with learning disabilities
- Chest drain management
- Integrated care for people with schizophrenia and psychosis

Article Requests

In September and October we provided access to **456** articles.

#KNOWvember21

During November, library and knowledge staff showcase the many ways they mobilise evidence and knowledge.

This enables people to learn before, during and after everything they do so that good practice can be replicated and pitfalls are avoided.

It is an opportunity to encourage more people working in the NHS to:

- apply and use evidence
- build know-how
- continue to learn
- drive innovation to implement successful change
- transform services and improve the quality of care.
