<p>“Anorexia-lite”: the dangers of weight classification in diagnosis De Cunha L et al Lancet Psychiatry 10 (9) 666-667</p>
<p>Connecting the pro-recovery eating disorder community: an analysis of the language on science, Twitter and Reddit Juel E et al Psychology of Popular Media 2023 epub connecting the pro-recovery</p>

<p>Personal account: the impact of eating disorders on my mental health <i>Eating disorders are an insidious dangerous mental illness which have the highest mortality rate out of any other mental illness, but yet they are still massively misunderstood. A illness with so much stigma. In this article we explore some of the myths behind eating disorders, hear a harrowing but inspiring story and take home some practical tips on how to support those affected by eating disorders because remember they are often hidden in plain sight.</i> Virgo H Clinics in Integrated Care 19 (Aug) 100158</p>
<p>A vignette study of mental health literacy for binge-eating disorder in a self-selected community sample Hollett K et al Journal of Eating Disorders 11 (1) 1-7</p>

<p>Recommendations for establishing or expanding a successful forensic psychology practice Thompson D, Frumkin I Practice Innovations 2023 recommendations</p>
<p>Out of their minds? Externalist challenges for using AI in forensic psychiatry Starke G et al Frontiers in Psychiatry 14 (2023) out of their minds</p>

Intellectual and Learning Disabilities

The recognition, assessment and perceptions of total pain in people with profound intellectual disabilities: a mixed methods systematic review

Goodall M et al
JARID 36 (5) 940-950

Scoping review on communication systems used by adults with severe/profound intellectual disability for functional communication

Danker J et al
JARID 36 (5) 951-965

'Playing a guessing game': recognising and responding to anxiety in children with intellectual disability

Fynn G et al
JARID 36 (5) 1150-1161

Using smart phone technology to improve daily living skills for individuals with intellectual disabilities

Stierle J et al
JARID 36 (5) 1169-1178

Time to rethink behaviours that challenge in people with intellectual disabilities

Hassiotis A
Lancet Psychiatry 10 (9) 654-655

LGBTQIA+

Bisexual women's experiences of receiving help for mental health difficulties through psychological therapy: A qualitative exploration

Pitt M et al
Psychology of sexual orientation and gender diversity online first bisexual

Solo aging in the LGBTQ+ community

People may be well-versed in the changing needs of older adults, but still have no understanding of the diverse needs of LGBTQ+ older adults. This population is often inadequately represented, marginalized, mistreated, and poorly served in the mainstream aging field and in LGBTQ+ rights movements. LGBTQ+ Solo Agers have significantly more holistic health and aging challenges than their contemporaries and often fall through the cracks, resulting in dysfunctional patterns and tragic outcomes.

Karen McPhail
Generations Journal 47 (2) solo aging

"Shared lived experience": describing a virtual counsellor-facilitated LGBTQ+ support group for disordered eating

Brownstone L et al
Psychology of Sexual Orientation and Gender Diversity 2023 epub shared lived experience

Mental Health & Physical Activity
<p>Recovery riders: a cycling project for patients in psychiatric intensive care Nwaka R et al Nursing Times 119 (8) 36-37</p>
<p>Predictors of long-term exercise engagement in patients with obsessive-compulsive disorder: the role of physical activity enjoyment Szuhany K et al Behavior Therapy 54 (4) 610-622</p>
<p>Cost-effectiveness analysis of physical activity interventions for people with schizophrenia or bipolar disorder: systematic review Huajie J et al BJPsych 223 (2) 362-376</p>
Mindfulness and Wellbeing
<p>Self-transcendent states during a modified mindfulness-based stress reduction program predict improvements in mood Hanley A et al Psychology of Consciousness 10 (3) 213-224</p>
<p>The impact of an organizational-level mindfulness-based intervention on workplace social capital and psychological safety: a qualitative content analysis Hasager B et al Frontiers in Psychology 14 (2023) the impact</p>
<p>Impact of warm mindfulness on emotion regulation: a randomized controlled effectiveness trial Gawande R et al Health Psychology online first impact of warm mindfulness</p>
Miscellaneous
<p>Air quality and mental health: evidence, challenges and future directions Kamaldeep B et al BJPsych Open 9 (4) e120</p>
<p>Mindsets matter for every patient and we can all help Ring D BJPsych Open 9 (4) e131</p>

The opioid crisis fuelled by health systems: how will future physicians fare?

Kaggwa M et al
BJPsych International 20 (3) 58-60

The benefits of digitisation of psychiatric care facilities

Skuse D
BJPsych International 20 (3) 53

How can we overcome health inequalities in psychiatry?

Monk-Cunliffe J
BJPsych Bulletin 47 (4) 228-230

Transforming mental health systems globally: principles and policy recommendations

Vikram Patel et al
Lancet 402 (10402) 656-666

Schizophrenia

Cognitive behavioural therapy plus standard care versus standard care for persistent aggressive behaviour or agitation in people with schizophrenia

Ballesteros J et al
Cochrane Database of Systematic Reviews 2023 (7) CD013511

Cost-effectiveness analysis of physical activity interventions for people with schizophrenia or bipolar disorder

Jin H
BJPsych 223 (2) 362-376

Association between exposome score for schizophrenia and functioning in first-episode psychosis: results from the Athens first-episode psychosis research study

Erzin G et al
Psychological Medicine 53 (6) 2609-2618

Self-harm and Suicide

Resilience to self-harm

A scoping review of protective factors that aid in recovery among marginalized young people
Khan A, Ungar M
Crisis 44 (1) 61-69

The efficacy of oral ketamine in severely depressed patients at high risk of suicide

Kaur S et al
Asian Journal of Psychiatry 86 (Aug) oral ketamine

Targeting perceived burdensomeness to reduce suicide risk

Lieberman A et al
Behavior Therapy 54 (4) 696-707

Psychiatry in the arts:

Apropos suicide verdicts: Lord Clifford strangled himself with his cravat in 1673? Beyond reasonable doubt versus the balance of probabilities

Wilkinson G
BJPsych 223 (2) 376

Prevalence and factors associated with suicidal ideation among students taking university entrance tests: revisited and a study based on Geographic Information System data

Nahrin R et al
BJPsych Open 9 (4) e129

Suicide survivors: a population at risk
