

Library and Knowledge Services Impact Data April 2021 to March 2022

Feedback and impact data from literature searches have been collected. Surveys were emailed to staff from Lincolnshire Community Health Services NHS Trust.

759

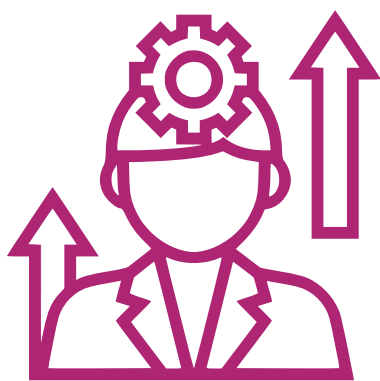

The number of journal article requests completed by our Library & Information Advisors

59

The number of literature searches completed by our Clinical Librarian team

82% of searches helped personal and professional development.

73% of literature searches generated new ideas

"[This search enabled me] to create a presentation on placement and deliver to...staff who come across elements of motor neurone diseases."

"The search contributed to a research proposal and the hope is that this will lead to a publication in the future!"
