

# Library and Knowledge Services Impact Data April 2021 to March 2022

Feedback and impact data from literature searches. Surveys were emailed to staff from Lincolnshire Partnership NHS Foundation Trust.

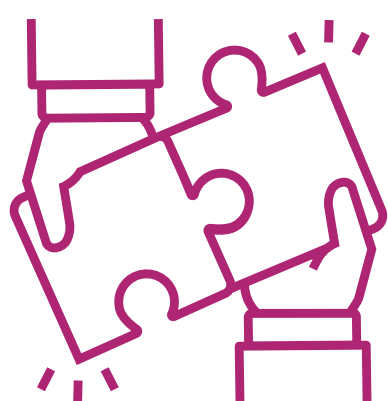

## 884

The number of journal article requests completed by our Library & Information Advisors

## 39

The number of literature searches completed by our Clinical Librarian team

80% of literature searches were used to facilitate collaborative working.

60% of literature searches generated new ideas

"[The literature search] has supported a balanced, evidenced based review of the impacts of using body worn cameras."

"This search enabled me and my colleagues to inform the development of a clinical supervision policy update."
