

# Library and Knowledge Services Impact Data Apr 2022 - Mar 2023

Feedback and impact data from journal article requests and literature searches have been collected. Surveys were emailed to staff from **Lincolnshire Community Health Services NHS Trust**.

## 752

The number of **journal articles** that we have provided access to this year

## 26

The number of **literature searches** completed by the Clinical Librarian team

## 60%

of literature searches **increased staff knowledge and skills**

## 40%

of literature searches **informed research**

"[The article request] saved me [a] huge amount of time [and] allowed me to maintain and improve my knowledge, and share this with colleagues for the benefit of the patient."

"The search was used within the Parkinson's team to raise awareness of research and support critical analysis."
