<p>An investigation into mothers' experiences of their children's functional tic-like behaviour and tic attacks Ludlow A et al PLoS One 19 (1) e0292742</p>
<p>A scoping review of trans and gender diverse children and adolescents experiences of physical activity, sport and exercise participation Austin F et al Mental Health and Physical Activity pre-proof Jan 24 a scoping review</p>
<p>Dementia and Alzheimer's Disease</p>
<p>The role of TNF-α in Alzheimers Disease: a narrative review Plantone D et al Cells 13 (1) the role of TNF</p>
<p>Enhancing spatial navigation skills in mild cognitive impairment patients: a usability study of a new version of ANTaging software Stramba-Badiale C et al Frontiers in Human Neuroscience Jan 24 enhancing spatial navigation</p>
<p>Use of electroencephalogram, gait and their combined signals for classifying cognitive impairment and normal cognition Jin-Young M et al Frontiers in Aging Neuroscience 2024 use of electroencephalogram</p>
<p>Depression/Depressive Disorders</p>
<p>Developing psychosocial interventions for late-life depression and comorbid hoarding disorder Wilkins V, Kiosses D American Journal of Geriatric Psychiatry 32 (2) 148-150</p>
<p>Do emotion regulation difficulties in depression extend to social context? Everyday interpersonal emotion regulation in current and remitted major depressive disorder Liu D et al Journal of Psychopathology & Clinical Science 133 (1) 61-75</p>

Association between social withdrawal and suicidal ideation in patients with major depressive disorder: the mediational role of emotional symptoms

Jia H et al

Journal of Affective Disorders 347 (Feb) 69-76

Should probiotics be administered as an adjunctive treatment along with antidepressants for major depressive disorder?

Zulfiqar H et al

Journal of the Pakistan Medical Association 74 (1) probiotics

Eating Disorders

The role of mindfulness on the psychological aspects of anorexia nervosa

Dikmeer et al

Clinical Child Psychology & Psychiatry 29 (1) 15-29

Self-disclosure by adolescents in therapy for eating difficulties: A Q-Methodology study

Dunlop R et al

Clinical Child Psychology & Psychiatry 29 (1) 90-102

Mental health and disordered eating in athletes

Kussman A et al

Clinics in Sports Medicine 43 (1) 71-91

Eating disorders

Anorexia nervosa (AN) and bulimia nervosa (BN) are easily missed in the emergency department, because patients may present with either low, normal, or increased BMI. Careful examination for signs of purging and excessive use of laxatives and promotility agents is important. Careful examination for and documentation of dental erosions, posterior oropharyngeal bruising, Russel's sign, and salivary and parotid gland inflammation are clues to the purging behavior.

Gorgas D

Emergency Medicine Clinics of North America 42 (1) 163-179

Cannabis use and binge eating: examining the relationship between cannabis use and clinical severity among adults with binge eating

Wilkinson M et al

Experimental & Clinical Psychopharmacology advance online (Jan 24) cannabis use

Forensic Psychiatry/Psychology

Detention of children and adolescents under mental health legislation: a scoping review of prevalence, risk factors and legal frameworks

Scholin L et al

BMC Pediatrics 24 (1) detention of children

Engaging forensic psychiatry patients in health-care decision making

Zhao J et al

Lancet Psychiatry epub (Jan 24) engaging forensic psychiatry patients
<p>Dementia care pathways in prisons – a comprehensive scoping review Treacy S et al Health & Justice 12 (1) 1-40</p>
<p>Editorial; Objective and measureable predictors of violence risk and outcome among forensic patients with psychosis Woods-Jaeger B et al Training & Education in Professional Psychology 18 (1) 31-41</p>
LGBTQIA+
<p>Pride in healthcare: Reflections on finding my voice and supporting LGBTQ+ young people to find theirs Huckridge J et al Clinical Child Psychology & Psychiatry 29 (1) 6-9</p>
<p>Eating disorder symptoms among transgender and gender diverse youth Kramer et al Clinical Child Psychology & Psychiatry 29 (1) 30-44</p>
Mindfulness and Wellbeing
<p>Effect of mindfulness-based stress reduction (MBSR) program on depression, emotion regulation and sleep problems: a randomized controlled trial study on depressed elderly Javadzade N et al BMC Public Health 24 (1) 1-8</p>
<p>Effects of a brief mindfulness intervention program: changes in mindfulness and self-compassion predict increased tolerance of uncertainty in trainee psychologists Pickard J et al Training & Education in Professional Psychology 18 (1) 69-77</p>
<p>How flow and mindfulness interact with each other in mindfulness-based augmented reality mandala coloring activities Hao Chen et al Frontiers in Psychology 14 (Jan) flow and mindfulness</p>
<p>Attenuation of anxiety-potentiated startle after treatment with escitalopram or mindfulness mediation in anxiety disorders Hoge E et al Biological Psychiatry 95 (1) 85-92</p>
Schizophrenia

Time for renewed optimism for schizophrenia?

Horton, R
Lancet 403 (10422) 117

Muscarinic drug shows efficacy in schizophrenia but much is left to be discovered

Andrea Cipriani et al
Lancet 403 (10422) 120-122

Efficacy and safety of the muscarinic receptor agonist KarXT (xanomeline–trospium) in schizophrenia (EMERGENT-2) in the USA: results from a randomised, double-blind, placebo-controlled, flexible-dose phase 3 trial

Inder Kaul et al
Lancet 403 (10422) 160-170

Effecacy of add-on blonanserin in treatment-resistant schizophrenia therapy: a retrospective cohort study

Tang S et al
Asian Journal of Psychiatry 91 (Jan) 103867

Self-harm and Suicide

Same sex-attraction as a predictor of suicide and self-harm behaviours: the role of bullying and social support

Tetkovic I et al
Journal of Affective Disorders 350 (Jan) 396-402

Predicting suicide death after emergency department visits with mental health or self-harm diagnoses
