Covid-19

Tele mental health helplines during the Covid-19 pandemic: do we need guidelines?

Singh S, Sagar R
Asian Journal of Psychiatry Vol 67 tele mental health

Diagnostic challenges posed by intersections between post-acute covid syndrome and neurocognitive disorders

Philip S et al
Asian Journal of Psychiatry Vol 67 diagnostic challenges

Dementia and Alzheimer's Disease

Digital dementia care for the future: opportunities and challenges

Ramsey M, Lee E
American Journal of Geriatric Psychiatry 30 (1) 12-14

Low dose lithium treatment of behavioral complications in Alzheimer's Disease: Lit-AD Randomized Clinical Trial

Devanand D et al
American Journal of Geriatric Psychiatry 30 (1) 32-42

Advance care planning in dementia: having a voice

Karen Harrison Denning
British Journal of Neuroscience Nursing 17 (6) 220–221

Donepezil overdose secondary to use of a smart home device for medication reminders

Donepezil is used to treat mild to moderate dementia in Alzheimer's disease. Even though it is a relatively safe medication, important cardiac side effects of the medication include bradycardia, atrioventricular block and sinoatrial block.

Gautam Sen et al
British Journal of Hospital Medicine 83 (1) Donepezil overdose secondary

Depression

The psychometric properties of the Depression Anxiety Stress Scale-21 (DASS-21) Bangla version

Ahmed A et al
Acta Psychologica Vol 223 psychometric properties

Baseline anxiety and early anxiety/depression improvement in anxious depression predicts treatment outcomes with escitalopram: A CAN-BIND-1 study report

Khoo Y et al

Journal of Affective Disorders Vol 300 pp 50-58

Disorders

Viloxazine: a new miracle drug for attention deficit hyperactivity disorder (ADHD) or just another non-stimulant

Hafeez S et al

Asian Journal of Psychiatry Vol 67 viloxazine

A longitudinal examination of the reciprocal relationship between borderline personality features and interpersonal relationship quality

Howard K et al

Personality Disorders: Theory, Research, and Treatment 13 (1) 3-11

Narrative identity in borderline personality disorder

Sajjadi S et al

Personality Disorders: Theory, Research, and Treatment 13 (1) 12-23

Delay discounting and narcissism: a meta-analysis with implications for narcissistic personality disorder

Journal of Applied Research in Intellectual Disabilities 35 (1) 24-25

LGBTQ+

Gender in mental health: Gender-based violence, suffering, recovery and the greater responsibility of society during the Covid-19 pandemic

Alibudbud R

Asian Journal of Psychiatry Vol 67 gender in mental health

Mental Health and Physical Activity

Cognitive and psychosocial effects of an acute sun salutation intervention among adults with stress

Evidence suggests that yoga can improve executive functioning (EF) and psychological well-being, but there is no evidence whether flow-based, moderate-intensity forms of yoga can deliver similar benefits

Phansikar M, Mullen S

Mental Health and Physical Activity Vol 22 cognitive and psychosocial effects

Mindfulness/Wellbeing

Virtual mindfulness interventions to promote well-being in adults: a mixed-methods systematic review

Noorbhal L et al

Journal of Affective Disorders Vol 300 pp 1-58

The relative contributions of live and recorded online mindfulness training programs to lower stress in the workplace: longitudinal observational study

Wolever R et al

Journal of Medical Internet Research 24 (1) relative contributions

Miscellaneous

Patients in mental healthcare should be referred to as patients and not service users

Priebe S

BJPsych Bulletin 45 (6) 327-328

Running a journal club in 2020 reflections and challenges

Mark I et al

BJPsych Bulletin 45 (6) 339-342

What they don't teach you in medical school: helping the patient with chest pain of unknown cause

Psychological factors can play a significant role in the perception of chest pain. Patients with such a psychological disturbance may not meet the full criteria for a diagnosable psychiatric illness, and thus cannot be assigned a specific diagnosis. Through their clinical acumen, judicious use of special investigations and by forming a therapeutic alliance, clinicians can identify and help these patients.

Stephen-John Martin et al

British Journal of Hospital Medicine 83 (1) What they don't teach you in medical school

Professional

Psychiatry Curriculum: how does it affect medical students' attitude toward psychiatry

Lee H et al

Asian Journal of Psychiatry Vol 67 psychiatry curriculum

PsychStart: a novel mentoring scheme for supporting and valuing medical students interested in psychiatry

Hewson T et al
