Mental Health Current Articles Bulletin – April 2026

How to Obtain an Article

If you would like to request any articles included in this bulletin, or to be put onto the bulletin's distribution list, please contact Library and Knowledge Services at Grantham Hospital:

Tel: 01476 464321

email: ulth.library.grantham@nhs.net

If you would like to receive any of our other bulletins please sign up here:
<https://www.nhslincslibrary.uk/bulletin-request-form/>

If you require an in-depth search on a topic featured in this bulletin then please contact
ulth.clinical.librarian@nhs.net

Abuse/Violence/Bullying

Bullying and harassment in a university context: impact on the mental health of medical students

Martinez-Fierro M et al
Psychiatry International 7 (1) 8
10.3390/psychiatryint7010008

Identifying factors associated with bullying roles using the interRAI Child and Youth Mental Health (ChYMH) suite of instruments

Stewart S et al
Child Psychiatry and Human Development 57 (1) 112-123
10.1007/s10578-024-01698-y

Child-reported violence, beliefs and mental health: a cross-sectional quantitative study of 6-17 year olds in South Africa

Franchino-Olsen H et al
Child Abuse and Neglect 173 (Mar) 107887
10.1016/j.chiabu.2026.107887

Is there experimental evidence for the effectiveness of disciplinary spanking? A review and meta-analysis of four controlled trials

Atkinson L et al
Child Abuse and Neglect 175 (May) 107945
10.1016/j.chiabu.2026.107945

ADHD

Mental health, ADHD, and autism review: underdiagnosis, misdiagnosis and overdiagnosis are happening simultaneously

Mahase E

BMJ 393 (8485) s650

10.1136/bmj.s650

Sleep, rest-activity rhythm, cognitive and emotional symptoms in adult ADHD: unravelling the links with an actimetry-based approach

Walter A et al

BMC Psychiatry 26 (1) 317

10.1186/s12888-026-07947-9

Integrating single-channel EEG neurofeedback into video game-based digital therapeutics for ADHD

Yan C et al

Journal of Neuroengineering & Rehabilitation 23 (1) 124

10.1186/s12984-026-01918-7

CBT, parent training and combined approaches for children with ADHD: a randomized study

Hafiz Ahmet B et al

Psychology and Psychotherapy 99 (1) 149-165

10.1111/papt.70011

Autism

Hospital passports for people with learning disabilities and autistic people

Nannen D

British Journal of Nursing 31 (7) 380-381

Neurobehavioral assessment of sensorimotor function in autism using smartphone technology

Gultig K et al

Autism Research 19 (2) e70166

10.1002/aur.70166

Mid-childhood developmental and behavioural outcomes in infants with a family history of autism and/or attention deficit hyperactivity disorder

Chapman T et al

Journal of Child Psychology & Psychiatry & Allied Disciplines 67 (2) 282-295

10.1111/jcpp.70048

Autism training for law enforcement officers: perceptions from the field

Kenney C et al

Journal of Autism & Developmental Disorders 56 (2) 819-829

10.1007/s10803-024-06587-w

The power of ECHO autism: improving confidence and holistic care for autistic adults
Cheak-Zamora N et al
Journal of Intellectual Disability Research 70 (3) 274-286
10.1111/jir.70069

Bereavement and Grief

Awaiting the rubble: phenomenological perspectives on ambiguous loss by earthquake survivors

Keles F et al
BMC Psychology 14 (1) 287
10.1186/s40359-026-04086-4

Grief, bereavement and mental health after stillbirth

Gibbins K et al
Clinics in Perinatology 53 (1) 105-118
10.1016/j.clp.2025.11.001

Desire thinking as a cognitive mechanism of yearning after bereavement

Comtesse H et al
Journal of Affective Disorders 395 (Pt B) 120779
10.1016/j.jad.2025.120779

Dreams of the deceased: a scoping and mixed-methods systematic review

Mamat Z et al
Sleep Medicine 140 (Apr) 108787
10.1016/j.sleep.2026.108787

Child and Adolescent Issues

Is young people's mental health worse than in the past?

Groenman A et al
BMJ 393 (8485) s410
10.1136/bmj.s410

Assessing children and adolescents exposed to trauma

McMickens C et al
Child & Adolescent Clinics of North America 35 (2) 203-222
10.1016/j.chc.2025.11.002

Assessing and treating childhood traumatic loss

Kaplow J et al
Child & Adolescent Clinics of North America 35 (2) 349-362
10.1016/j.chc.2025.11.012

Talk with me about it: child and youth perspectives on healing after child abuse

Stats M et al
Child Protection & Practice 8 (Mar) 100287
10.1016/j.chipro.2026.100287

Complex trauma

Unveiling the complex interplay: sudden emergence of first-rank Schneiderian symptoms following TMS in a patient with severe depression and complex trauma

Singh J et al
Case Reports in Psychiatry (2026) 5528976
10.1155/crps/5528976

Complex trauma and growth in men who have been abused as children and perpetrated domestic violence as adults

Arrigo J et al
Child Abuse Review 35 (1) 1-11
10.1002/car.70094

Complex post-traumatic stress disorder moderates functional connectivity in people with psychosis

Panayi P et al
Psychiatry Research Neuroimaging 355 (2026) 112082
10.1016/j.psychresns.2025.112082

The prevalence and risk factors of complex post-traumatic stress disorder in victims of intimate partner violence

Hu, J et al
Journal of Psychiatric Research 194 (Mar) 242-251
10.1016/j.jpsychires.2026.01.015

Is it time for AI to take a leading role in mass trauma mental health response?

Brenner G et al
Psychiatry Research epub (2026) is it time for AI
10.1016/j.psychres.2026.117164

Dementia and Alzheimer's Disease

Deep learning for FDG-PET classification in patients with Alzheimer's disease, dementia with Lewy bodies and their mixed pathology: a solution for diagnostic heterogeneity

Kim S et al
Frontiers in Aging Neuroscience 2026 (Mar) deep learning
10.3389/fnagi.2026.1780858

Health of Bi+ dementia caregivers: moderation effects of minority and caregiving stress

Kittle K et al
American Journal of Alzheimers Disease & Other Dementias 41 (2026) 1-14
10.1177/15333175251415106

Combatting stigma toward individuals with Alzheimer’s Disease and related disorders: the role of nostalgia

Turner R et al
International Journal of Older People Nursing 21 (1) 1-8
10.1111/opn.70056

Merging multimodal digital biomarkers into “Digital Neuro Fingerprints” for precision neurology in dementias: the promise of the right treatment for the right patient at the right time in the age of AI

Tarnanas I et al
Frontiers in Digital Health 2026 merging multimodal digital biomarkers
10.3389/fdgth.2025.1727707

Depression/Depressive Disorders

Are factors associated with death by suicide in people with borderline personality disorder modified by co-occurring depression?

Broadbear J et al
Journal of Psychiatric Research 194 (Mar) 271-280
10.1016/j.jpsychires.2025.12.033

Association of daily step count with depressive symptoms in patients with major depressive disorder using a Smartphone App (ReMAO): Longitudinal study

Refisch A et al
JMIR Mental Health 13 (2026) e81120
10.2196/81120

How to identify depression and anxiety in children and adolescents

Linan C et al
Jornal de Pediatria 102 (Supp 1) 101462
10.1016/j.jped.2025.101462

fMRI-guided V1-targeted rTMS improves depressive symptoms in adolescents and young adults with bipolar disorder: a double blind randomized controlled trial

Zhao X et al
BMC Medicine 24 (1) 242
10.1186/s12916-026-04766-3

Eating Disorders

Fluid requirements for adult inpatients with medically compromised eating disorders: a scoping review

Matthews-Rensch K et al
Nutrition & Dietetics 83 (1) 74-92
10.1111/1747-0080.70038

Neurodivergence

Beyond comorbidity: evolutionary insights into the concomitance of neurodivergence, major depressive disorder and anxiety disorders

Griffin B et al
Evolutionary Applications 19 (3) e70221
10.1111/eva.70221

Neurodivergence and well-being: the fulfilment of fundamental psychological needs, work-related stress and life satisfaction

van Rijswijk J et al
British Journal of Psychology 2026 (epub) 1-21
10.1111/bjop.70057

Neurodivergence & Gender (Mis) recognition: addressing inequity through neuroqueer knowing

Barnett J
Societies 16 (2026) 31
10.3390/soc16010031

Psychopharmacology

Lithium: a review of its adverse effects, toxicity and discontinuation

Prasad S et al
Disease-a-month 71 (4) 102064
10.1016/j.disamonth.2026.102064

Supporting patients on long-term antipsychotic medication

Duncan D et al
Journal of Prescribing Practice 8 (4) 156-159
10.12968/jprp.2025.0081

Psychopharmacology for trauma-exposed youth

Reliford A et al
Child & Adolescent Clinics of North America 35 (2) 235-247
10.1016/j.chc.2025.11.004

Reclaiming pharmacovigilance: bridging the evidence-practice gap in psychopharmacology

De las Cuevas C
Journal of Evaluation in Clinical Practice 32 (2) 1-3
10.1111/jep.70402

The effect of Dual Orexin Receptor Antagonists on sleep: a systematic review and pairwise meta-analysis

Stefanou A et al

Sleep Medicine 140 (Apr) 108792
10.1016/j.sleep.2026.108792

Schizophrenia

Comment:

Antipsychotic medicines for schizophrenia: time to move forward

Corrado Barbui et al

Lancet 407 (10531) 820-831

Comparative efficacy and tolerability of antidopaminergic and muscarinic antipsychotics for acute schizophrenia: a network meta-analysis of randomised controlled trials indexed in international English and Chinese databases

Johannes Schneider et al

Lancet 407 (10531) 876-891

Reducing stigma in voice hearing: using patient-centred language to foster trust and engagement

O'Connor A et al

British Journal of Mental Health Nursing 15 (1) reducing stigma

Self-harm and Suicide

Hospital-presenting self-harm and suicide among justice-involved adolescents on community-based orders: a population-based cohort study

Akpanekpo E et al

General Hospital Psychiatry 99 (Mar-Apr) 112-118

10.1016/j.genhosppsy.2026.01.012

The association between Google Trends suicide-related internet searches and self-harm hospitalizations and suicide mortality in Canada

Khodabandehloo P et al

Health Promotion and Chronic Disease Prevention in Canada 46 (2026) 35-39

10.24095/hpcdp.46.1.04

Predicting suicidal and self-harm ideation using ecological momentary assessment: deep learning analysis in a general population sample

Kim H et al

BMC Psychiatry 26 (1) 192

10.1186/s12888-026-07815-6

Predicting perceived likelihood of future suicide attempts in youth with non-suicidal self-injury: a machine learning approach using LightGBM and SHAP

Duan Y et al

Journal of Affective Disorders 398 (Apr) 120966

10.1016/j.jad.2025.120966

Sleep health/Disorders

Addressing insomnia symptoms through food aid to those with food insecurity

Khan U et al
Sleep Health 12 (2) 179-184
10.1016/j.sleh.2025.12.002

The long-term associations between kindergarten bedtime and sleep duration, executive function, and academic achievement

Woods A et al
Sleep Health 12 (2) 237-249
10.1016/j.sleh.2025.11.005

Joint trajectories of sleep disturbance and psychotic-like experiences in adolescent patterns, influential factors and their associations with mental health problems

Wang D et al
Sleep Medicine 140 (Apr) 108793
10.1016/j.sleep.2026.108793

Substance abuse/Addiction

Substance use disorder education via digital outreach: an evaluation of program dissemination and implementation

Taylor A et al
Journal of the American Pharmacists Association 66 (1) 102976
10.1016/j.japh.2025.102976

Does nitrous oxide addiction exist? An evaluation of the evidence for the presence and prevalence of substance use disorder symptoms in recreational nitrous oxide users

Back S et al
Addiction 119 (4) 609-618
10.1111/add.16380

Setting an agenda for adolescent substance use research in the national drug abuse treatment clinical trials network

Kelly S et al
Journal of Substance Use & Addiction Treatment 2026 epub setting an agenda
10.1016/j.josat.2026.209979

Effect of natural rewards on substance use disorder: an incentive sensitization perspective

Zheng W et al
Biological Psychiatry 99 (6) 436-445
10.1016/j.biopsych.2025.05.026

Therapies/OT in mental health

The therapy world has changed: where are we now?

Delboy S et al
Psychoanalytic Inquiry 46 (1) 61-75
10.1080/07351690.2024.2423575

Impact of running therapy on the mental health of adolescents in daycare or inpatient psychiatry units: a pilot study

Bretler Z et al
Child & Adolescent Psychiatry & Mental Health 20 (1) 46
10.1186/s13034-026-01055-y

How and why music therapy reduces distress and improves personhood for people with dementia, staff and families on NHS mental health dementia wards: a realist evaluation

Thompson N et al
Archives of Public Health 84 (1) 69
10.1186/s13690-026-01865-8

The effectiveness and outcomes of culturally adapted cognitive behavioral therapy across common mental health conditions: a meta-analysis

Wakif Z et al
Behavioral Sciences 16 (3) 356
10.3390/bs16030356

Veterans and Mental Health

Exploring the relationship between adverse childhood experiences, moral injury and social support in a clinical sample of UK military veterans

Beckwith M et al
European Journal of Trauma and Dissociation 10 (1) 100623
10.1016/j.ejtd.2025.100623

Understanding long-term physical and psychosocial outcomes from conflict to rehabilitation through the ADVANCE cohort

Watson F et al
Communications Medicine 6 (1) 1-10
10.1038/s43856-026-01475-z

Adverse mental health outcomes and alcohol misuse among UK Armed Forces personnel: fourth phase of a 20 year cohort study of military personnel who served during the Iraq and Afghanistan conflicts

Sharp M et al
Occupational and Environmental Medicine epub (2026) adverse mental health outcomes
10.1136/oemed-2025-110647

The impact of combat intensity and deployment stressors on veteran post-traumatic stress

Hertz-Palmor N et al
Psychiatry Research 357 (2026) 116944

10.1016/j.psychres.2026.116944
