Mental Health Current Articles Bulletin – May 2026

How to Obtain an Article

If you would like to request any articles included in this bulletin, or to be put onto the bulletin's distribution list, please contact Library and Knowledge Services at Grantham Hospital:

Tel: 01476 464321

email: ulth.library.grantham@nhs.net

If you would like to receive any of our other bulletins please sign up here:
<https://www.nhslincslibrary.uk/bulletin-request-form/>

If you require an in-depth search on a topic featured in this bulletin then please contact
ulth.clinical.librarian@nhs.net

Abuse/Violence/Bullying
<p>Understanding aggression in SATB2-Associated Syndrome: a mixed-methods study exploring caregiver perspectives Shelley L et al JARID 39 (3) e70247 10.1111/jar.70247</p>
<p>The mediating role of gaslighting as a psychosocial violence between self-silencing and psychological distress Aras E et al Scientific Reports 16 (1) 12364 10.1038/s41598-026-47134-0</p>
<p>School bullying and its association with psychological wellbeing: findings of the Fujian Adolescent Mental Wellness Study (FAMWeS) Jiang J et al PLoS ONE 21 (4) e0315993 10.1371/journal.pone.0315993</p>
<p>Age of first exposure and duration of child physical and sexual abuse: links to adolescent psychological and somatic health Hafstad G et al Child Abuse & Neglect 174 (Apr) 107942 10.1016/j.chiabu.2026.107942</p>

ADHD

From psychology to pathology in the diagnosis and treatment of ADHD

Berk M

BJPsych 228 (5) 394-395

10.1192/bjp.2025.10484

Stability in attention-deficit hyperactivity disorder prevalence: wishful illusion or complex reality?

Yasser Saeed Khan et al

BJPsych Open 12 (3) e96

10.1192/bjo.2026.11009

Internet addiction, ADHD, and adolescent mental health: a 1-year longitudinal study of risk and moderation

Cheng-Fang Y et al

Child & Adolescent Psychiatry and Mental Health 20 (1) 36

10.1186/s13034-026-01045-0

Exploring Cat-Human interaction as a psychosocial resource in autism and ADHD: risks, engagement and well-being

Widdison L et al

Behavioral Sciences 16 (2) 162

10.3390/bs16020162

Artificial Intelligence in Psychiatry

Warning: AI chatbots will soon dominate psychotherapy

Frances A

BJPsych 228 (5) 474-478

10.1192/bjp.2025.10380

Preconditions for responsible artificial intelligence adoption in psychiatry: commentary

Armitage R

BJPsych 228 (5) 489-490

10.1192/bjp.2026.10560

Systematic review of artificial intelligence in positive and existential psychiatry: advancing mental and emotional health through metacompetency development

Mitsea E et al

Healthcare 14 (6) 783

10.3390/healthcare14060783

Artificial intelligence in mental health care: a scoping review of reviews

Mohammad S Abu-Mahfouz et al

Frontiers in Psychiatry 17 (2026) artificial intelligence

10.3389/fpsy.2026.1688043

AI in mental health: transforming diagnosis and management of depression and anxiety

Kambar T et al
Health Science Reports 9 (4) e72316
10.1002/hsr2.72316

A cautionary tale for AI and machine learning in psychiatry

Zhe Sage Chen et al
Translational Psychiatry 16 (1) 136
10.1038/s41398-026-03930-w

Autism

Autism diagnosis and double empathy problem

Crompton C
BJPsych 228 (5) 479-481
10.1192/bjp.2025.10464

The association between autism and psychosis and the tools used to measure it: an updated systematic review and meta-analysis

Miles M et al
British Journal of Clinical Psychology 65 (2) 374-400
10.1111/bjc.70020

Parent' experiences in accessing services for their autistic children in the United Kingdom: a meta-synthesis

Kerr J et al
British Journal of Clinical Psychology 65 (2) 470-491
10.1111/bjc.70033

Bereavement and Grief

Managing loss and grief through the 'empty chair'

Nyatanga B
British Journal of Community Nursing 31 (5) 205

Prolonged grief disorder, but not death from Covid-19, elicits public stigma: a vignette-based experiment

Zammit T et al
Omega Journal of Death & Dying 93 (2) 1201-1221
10.1177/00302228241257306

From grief to growth: the role of coping strategies, kinship and cause of death

Pereira M et al
Omega Journal of Death & Dying 93 (2) 1233-1249
10.1177/00302228241259647

The lawless of loss: poetry and autoethnographic writing as therapy in grief and loss
Williams M
Omega Journal of Death & Dying 93 (2) 1270-1286
10.1177/00302228241260937

Child and Adolescent Issues

Child and adolescent mental health research in a digital age: missed opportunities and overlooked threats
Gega L, Dekkers T
Child & Adolescent Mental Health 31 (2) 93-95
10.1111/camh.70087

Mental health and psychological vulnerabilities in the context of technology-facilitated child sexual exploitation and abuse: a systematic evidence review
Page S et al
Child Abuse and Neglect 176 (Jun) 108033
10.1016/j.chiabu.2026.108033

The impact of emotional abuse: a longitudinal study on detachment and anxiety in adolescents
Calaresi D et al
Child Abuse and Neglect 176 (Jun) 108041
10.1016/j.chiabu.2026.108041

Complex trauma

Complex trauma interventions for children and adolescents
Hodgdon H et al
Child & Adolescent Psychiatric Clinics North America 35 (2) 373-387
10.1016/j.chc.2025.11.014

Mapping the relationship between post-traumatic stress and post-traumatic growth and the mediating role of resilience
Orovou E et al
Clinical Psychology & Psychotherapy 33 (2) e70249
10.1002/cpp.70249

When trauma meets personality and suicide: a case report on complex PTSD and Borderline Personality Disorder
Mota L et al
Case Reports in Psychiatry (2026) 5469158
10.1155/crps/5469158

Complex PTSD among persons with serious mental illness receiving community mental health services
Lu, Weili et al

Journal of Mental Health 35 (2) 279-292
10.1080/09638237.2025.2585203

Dementia and Alzheimer's Disease

Alzheimer's disease immunotherapy and the amyloid hypothesis: when aggregation obscures interpretation

Fox N et al
Lancet 407 (10540) 1664-1665
10.1016/S0140-6736(26)00789-0

Psychotherapy and problematic behavior reduction in long-stay nursing home residents with Alzheimer's Disease and Related Dementias

Huan T et al
JAMDA 27 (4) 106106
10.1016/j.jamda.2025.106106

The therapeutic efficacy of transcranial direct current stimulation in managing Alzheimer's disease: a systematic review and meta-analysis

Wang X et al
Frontiers in Aging Neuroscience (2026) 1726469
10.3389/fnagi.2026.1726469

Depression/Depressive Disorders

Seminar: Depression

Gin S et al
Lancet 07 (10540) 1738-1756
10.1016/S0140-6736(26)00201-1

Adverse childhood experiences and social determinants of mental health as predictors of adult depression: a machine learning approach

Han E et al
Journal of Counseling & Development 104 (2) 268-279
10.1002/jcad.70029

Timing of exposure to parental depression from pregnancy to young adulthood and mental health in adult offspring

Feibel A et al
JAMA Network Open 9 (4) e264892
10.1001/jamanetworkopen.2026.4892

Disorders

Using clinician-patient collaboration to tackle structural stigma and age discrimination in borderline personality disorder

Collins K et al

<p>BJPsych Advances 32 (3) 180-182 10.1192/bja.2025.10140</p>
<p>Flashbacks uniquely characterise post-traumatic stress disorder: distinguishing flashbacks from other psychological processes and phenomena Siddaway, Andy BJPsych Advances 32 (3) 207-208 10.1192/bja.2025.3</p>
<p>Attentional bias in paranoia: systematic review and meta-analysis Eid L et al BJPsych Open 12 (3) e100 10.1192/bjo.2026.10993</p>
<p>Professionals' and non-professionals' experiences of working with people with Hoarding Disorder: a thematic synthesis Parker H et al British Journal of Clinical Psychology 65 (2) 315-336 10.1111/bjc.70022</p>
<p>Was that really me? Relationships between memory and sense of self in people with maladaptive daydreaming Meidan O, Soffer-Dudek N British Journal of Clinical Psychology 65 (2) 671-688 10.1111/bjc.70044</p>
<p>Efficacy of internet-based cognitive behavioral therapy on somatic symptom disorder and common related functional disorders: a meta-analysis of randomized controlled trials Liu S et al General Hospital Psychiatry 99 (Mar) 92-101 10.1016/j.genhosppsy.2026.01.017</p>
<p>Eating Disorders</p>
<p>Cognitive behavioural therapy compared to control conditions in treating bulimia nervosa and binge-eating disorder: a systematic review and meta-analysis Siozios A et al British Journal of Clinical Psychology epub (2026) cognitive behavioural therapy 10.1111/bjc.70070</p>
<p>Legal decisions on longstanding severe eating disorders Tan J et al BJPsych 228 (5) 396-399 10.1192/bjp.2025.10490</p>
<p>A scoping review of eating disorder symptoms and mental health during the postpartum period: predictors, course, and consequences for mothers and infants Pearsall M et al</p>

Journal of Eating Disorders 14 (1) 95
10.1186/s40337-026-01581-2

Forensic Psychiatry/Psychology

Psychonauts: reimagining recovery in forensic psychiatry

Curkovic M et al
Lancet Psychiatry 13 (5) 369-371
10.1016/ S2215-0366(25)00364-5

Screening-to-intervention pathway for child anxiety problems alongside usual school practice versus usual school practice only (iCATSi2i): a cluster-randomised, controlled trial in primary schools in England

Reardon T et al
Lancet Psychiatry 13 (5) 396-412
10.1016/ S2215-0366(26)00064-7

General health problems in a forensic psychiatric hospital

Birkeland S et al
Psychiatry Research Communications 6 (1) 100249
10.1016/j.psycom.2026.100249

The use of virtual reality in forensic-correctional psychiatric settings: a systematic review

Wang M et al
Psychiatry & Clinical Neurosciences 2026 (Apr) 70068
10.1111/pcn.70068

Intellectual/Learning Disabilities

Mental health classification and care for individuals with intellectual disability and severe challenging behaviour: a three-year follow-up on quality of life

Migchelen I et al
JARID 39 (3) e70243
10.1111/jar.70243

Access to communication assessment and intervention for adults with intellectual disabilities

Chaney C et al
JARID 39 (3) e70242
10.1111/jar.70242

The feasibility of a chair yoga intervention to improve mental health and wellbeing for adults with learning disabilities: a pilot study

Metcalf D et al
British Journal of Learning Disabilities 54 (2) 276-284
10.1111/bld.70035

Supporting people with learning disabilities as arts participants: examining the perspectives of their support workers

Verbeke A et al

British Journal of Learning Disabilities 54 (2) 226-236

10.1111/bld.70030

Adaptive and maladaptive behaviours and their cognitive correlates in aging adults with Down Syndrome

Yang Y et al

JARID 39 (3) e70234

10.1111/jar.70234

LGBTQ+

Prevalence of neurodevelopmental and psychiatric disorders among transgender and gender non-conforming youth and adults in a US Healthcare system between 2019 and 2023

Smoller C et al

Comprehensive Psychiatry 147 (Apr) 152688

10.1016/j.comppsy.2026.152688

Physical activity is associated with less emotional distress among transgender and gender diverse adolescents

Kaja S et al

Mental Health & Physical Activity 30 (Mar) 100773

10.1016/j.mhpa.2026.100773

Miscellaneous

Measuring mental disorder burden for action

Merete Nordentoft et al

Lancet 407 (10543) 1991-1993

10.1016/S0140-6736(26)00818-4

Updated trends in the global prevalence and burden of mental disorders, 1990–2023: a systematic analysis for the Global Burden of Disease Study 2023

GBD 2023 Mental Disorder Collaborators

Lancet 407 (10543) 2040-2064

10.1016/S0140-6736(26)00519-2

Devouring the self: from Erysichthon to modern autophagia – Psychiatry in Literature

Cambioli L, Riva M

BJPsych 228 (5) 393

10.1192/bjp.2025.10443

“Is that me, baby?”: false self and collapse of recognition in Bruce Springsteen’s ‘Brilliant Disguise’ – Psychiatry in music

Flynn A

BJPsych 228 (5) 486
10.1192/bjp.2025.10446

Neurodivergence/Neurology

Integrating mental health within neurology services

Thomas S
British Journal of Neuroscience Nursing 22 (2) 68-71
10.12968/bjnn.2026.0027

The effectiveness of an online-based psychosocial program for parents of children with neurodevelopmental disorders – a randomized controlled trial

Pardo-Salamanca A et al
Child & Adolescent Mental Health 31 (2) 96-105
10.1111/camh.70044

Neurodiversity and mental health in adulthood: exploring the unique contributions of autism and ADHD to internalising problems

Hargitai L et al
Scientific Reports 16 (1) 16343
10.1038/s41598-026-35440-6

Psychopharmacology

How much is enough in ADHD pharmacotherapy

Caye A
Lancet Psychiatry 13 (6) 447-448
10.1016/S2215-0366(26)00122-7

Pharmacological interventions for ADHD: a systematic review and dose-effect network meta-analysis

Nourredine M et al
Lancet Psychiatry 13 (6) 485-495
10.1016/S2215-0366(26)00091-X

Psychopharmacology in Dermatology

Katamanin O et al
Indian Dermatology Online Journal 17 (2) 178-184
10.4103/idoj.idoj_186_25

Psychopharmacology treatment of Schizoaffective Disorder

Osser D
Psychiatry & Clinical Psychopharmacology 36 (1) 1-3
10.5152/pcp.2025.251309

Schizophrenia

Comment:

Antipsychotic medicines for schizophrenia: time to move forward

Corrado Barbui et al
Lancet 407 (10531) 820-831

Comparative efficacy and tolerability of antidopaminergic and muscarinic antipsychotics for acute schizophrenia: a network meta-analysis of randomised controlled trials indexed in international English and Chinese databases

Johannes Schneider et al
Lancet 407 (10531) 876-891

Untangling violent behavior in schizophrenia: the role of formal thought disorder and cognitive dysfunction

Bolu G et al
Asian Journal of Psychiatry 118 (Apr) 104989
10.1016/j.ajp.2026.104898

The battle within interplay of defeatist beliefs and self-stigma in schizophrenia

Gupta P et al
Asian Journal of Psychiatry 119 (May) 104927
10.1016/j.ajp.2026.104927

Self-harm and Suicide

Massed brief cognitive behavioral therapy (mCBT) for suicide prevention: results of a pragmatic clinical trial

Bryan C et al
Behavior Therapy 57 (3) 456-467
10.1016/j.beth.2025.10.003

Mental health practitioners' experiences and practices in making decisions about onward care for patients presenting to emergency departments with self-harm or suicidal ideation: systematic review and meta-analysis

Suzuki M et al
BJPsych Open 12 (3) e95
10.1192/bjo.2026.11007

Is suicidality contagious? The social transmission of suicidal thoughts and behaviours: a systematic review and meta-analysis

Gavan L et al
Comprehensive Psychiatry 147 (Apr) 152691
10.1016/j.comppsy.2026.152691

Substance abuse/Addiction

GLP-1 therapies: an emerging approach for alcohol reduction

Hendershot C et al
Lancet 407 (10540) 1658-1659

10.1016/S0140-6736(26)00513-1
<p>Social attunement and alcohol use: the role of age and gender Romein C et al Addictive Behaviors 175 (Apr) 108587 10.1016/j.addbeh.2025.108587</p>
<p>Treating those not ready to quit smoking: doing harm while trying to help? Betts J et al Addictive Behaviours 176 (May) 108632 10.1016/j.addbeh.2026.108632</p>
<p>Therapies/OT in mental health</p>
<p>The seven factors of enlightenment: a framework for therapeutic presence in mental health nursing Linsley P British Journal of Mental Health Nursing 15 (2) seven factors 10.12968/bjmh.2025.0028</p>
<p>Editorial: The use of technology in mental health occupational therapy Bhing-Leet Tan et al Frontiers in Psychiatry 17 (2026) the use of technology 10.3389/fpsy.2026.1809565</p>
<p>Veterans and Mental Health</p>
<p>More high, less low? PTSD and the complex daily associations between cannabis use and depression in veterans Davis J et al Addictive Behaviours 175 (Apr) 108593 10.1016/j.addbeh.2025.108593</p>
<p>A randomised controlled trial comparing transdiagnostic behavior therapy and disorder-specific psychotherapies in veterans with emotional disorders Gros D et al Behavior Therapy 57 (3) 531-545 10.1016/j.psychres.2019.112541</p>
<p>Attentional control moderates the association between combat trauma exposure and fear conditioning among combat-exposed veterans Adamis A et al Behavior Therapy 57 (3) 577-588 10.1016/j.beth.2025.11.001</p>
<p>Risk and protective factors for suicide-related outcomes among serving personnel: a systematic review of cohort studies</p>

Bayliss L et al
BMJ Military Health 172 (3) 219-224
10.1136/military-2025-003040

“Once a soldier, always a soldier” until you’re not: the effect of identity loss on mental health and well-being following military discharge

Grant C et al
Military Psychology 38 (2) 163-176
10.1080/08995605.2025.2479895
