<p>Why cities matter for adolescent mental health and wellbeing Hannon E et al Lancet 403 (10428) 708-710</p>
<p>Understanding staff perceptions on adolescent seclusions <i>Nursing staff find adolescent seclusions necessary but also experience related guilt and self-doubt. Seclusion protocols in adolescent psychiatric units should include alternatives to seclusion and debriefing processes</i> Vidal C Evidence-Based Nursing 27 (1) 31</p>
<p>Supporting the mental health of migrant children, youth and families Cary M et al Child & Adolescent Clinics of North America 33 (2) xiii-xv</p>
<p>Trauma exposure in migrant children: Impact on Sleep and Acute Treatment Interventions Bryant B Child & Adolescent Clinics of North America 33 (2) 193-205</p>
<p>Dementia and Alzheimer’s Disease</p>

Emerging evidence that ginseng components improve cognition in subjective memory impairment, mild cognitive impairment and early Alzheimer's disease dementia

Lee R et al

Journal of Ginseng Research online first emerging evidence

A review on traditional Chinese medicine natural products and acupuncture intervention for Alzheimer's disease based on the neuroinflammatory

Chen Z et al

Chinese Medicine 19 (1) a review

"And does that necessarily mean absolutely Alzheimers?" An analysis of questions raised following amyloid PET results disclosure

Kim J et al

American Journal of Geriatric Psychiatry 32 (1) 45-54

Utility of the Brief Assessment of Cognitive Health (BACH) computerized screening tool in identifying MS-related cognitive impairment

Patrick K et al

Multiple Sclerosis and Related Disorders 82 (2024) 105398

Depression/Depressive Disorders

Beneficial and harmful effects of tricyclic antidepressants for adults with major depressive disorder: a systematic review with meta-analysis and trial sequential analysis

Barkholt Kamp C et al

BMJ Mental Health 27 (1) 300730

Lonely for life? Differences between chronic and transient loneliness and their impact on depression in older adults

Oughli H et al

American Journal of Geriatric Psychiatry 32 (4) 424-426

The dark and gloomy brain: grey matter volume alterations in major depressive disorder – fine-grained meta-analysis

Romeo Z et al

Depression and Anxiety Vol 2024 Article ID 6673522

Prevalence and risk factors for psychotic symptoms in young, first-episode and drug-naïve patients with major depressive disorder

Wu Y et al

BMC Psychiatry 24 (1) 66-77

Eating Disorders

Mental health and disordered eating in athletes

Kussman A et al

Clinics in Sports Medicine 43 (1) 71-91
<p>Facing eating disorder fears: an open trial adapting prolonged exposure to the treatment of eating disorders Butler R et al Behavior Therapy 55 (2) 347-360</p>
<p>The various facets of orthorexic eating behavior: five case reports of individuals with supposed orthorexia nervosa Barthels F et al Journal of Eating Disorders 12 (1) 1-14</p>
<p>Obsessive-compulsive symptomatology and disgust propensity in disordered eating behaviors of adolescents with celiac disease Efe A et al International Journal of Behavioral Medicine 31 (1) 85-96</p>
<p>Forensic Psychiatry/Psychology</p>
<p>Development and evaluation of a de-escalation training intervention in adults acute and forensic units: the EDITION systematic review and feasibility trial Owen Price et al Health Technology Assessment 29 (03) development and evaluation</p>
<p>Workplace trauma and professional quality of life in clinical and forensic psychiatry: the CRITIC study Bloemendaal A et al Frontiers in Psychiatry online first workplace trauma</p>
<p>Beyond discrimination: Generative AI applications and ethical challenges in forensic psychiatry Leda Tortora Frontiers in Psychiatry 15 (2024) beyond discrimination</p>
<p>Intervening factors between risk of violence and aggressive behaviours among forensic inpatients: a scoping review Ahmad Badruddin et al BMC Psychology 12 (1) intervening factors</p>
<p>Forensic implications of the parasomnias <i>Sleep-related violence (SRV) and sexual behavior in sleep (SBS) can occur in various sleep disorders, including confusional arousal, non-rapid eye movement parasomnias, rapid eye movement behavior disorder, and nocturnal frontal epilepsy. SRV and SBS can result in injury, sexual assault, or death of bed partners or other individuals, resulting in criminal charges and request for forensic assessment. Forensic experts evaluating alleged SRV and SBS may be asked to clarify a defendant's diagnosis and assess his or her criminal responsibility and risk of violence.</i> Holoysda B Sleep Medicine Clinics 19 (1) 189-198</p>

Intellectual/Learning Disabilities
<p>A systematic review of research on staff training as an intervention to develop communication in children and adults with profound intellectual and multiple disabilities Ware J Journal of Applied Research in Intellectual Disabilities 37 (2) e13201</p>
<p>Better preparing people with learning disabilities to navigate healthcare Griffiths J British Journal of Community Nursing 29 (3) 101-102</p>
<p>Family caregiver adaptation during the transition to adulthood of individuals with intellectual disabilities: a scoping review Kanthasamy S et al Healthcare 12 (1) family caregiver</p>
<p>Positive family connections for families of children with a developmental disability: cluster randomized controlled trial Sutherland D et al Journal of Family Psychology 2024 online first positive family connections</p>
Miscellaneous
<p>Can supplementing vitamin B12 improve mental health outcomes?: A literature review Tiago Reis da Silva BJCN 29 (3) 137-146</p>

<p>A picture of health? The quality of physical healthcare provided to adult patients admitted to a mental health inpatient setting D'Marieanne Koomson et al British Journal of Hospital Medicine 85 (3) A picture of health</p>
Mental Health and Physical Activity

Framework for understanding movement and physical activity in patients diagnosed with psychosis

Diamond R

BMJ Mental Health 27 (1) e300878

A scoping review of trans and gender diverse children and adolescents' experiences of physical activity, sport and exercise participation

Austin F et al

Mental Health and Physical Activity 26 (Mar) 100576

High intensity interval training in individuals with posttraumatic stress disorder: a randomized controlled pilot trial

Schoofs N et al

Mental Health and Physical Activity 26 (Mar) 100579

Associations between physical activity and subcategories of mental health: a propensity score analysis among a global sample of 341,956 adults

Huong C and Brown D

Mental Health and Physical Activity 26 (Mar) 100586

Professional

Understanding effect size: an international online survey among psychiatrists, psychologists, physicians from other medical specialities, dentists and other health professionals

Heimke F et al

BMJ Mental Health 27 (1)

Mental Health statistics: prevalence, services and funding in England

House of Commons Library

Mental Health Statistics

World Psychiatric Association-Asian Journal of Psychiatry Commission on the Mental Health and Wellbeing of international medical graduates

Bhugra D et al

Asian Journal of Psychiatry 93 (Mar) 103943

Schizophrenia

Effects of yoga on clinical symptoms, quality of life and social functioning in patients with schizophrenia: a systematic review and meta-analysis

Yin J et al

Asian Journal of Psychiatry 93 (Mar) 103959

Pharmacologic treatment of schizophrenia beyond dopamine receptor blockade – has its time come yet?

Correll C et al
JAMA Psychiatry 81 (2) 118-120

Different levels of prepulse inhibition among patients with first-episode schizophrenia, bipolar disorder and major depressive disorder

Sun Y et al
Journal of Psychiatry and Neuroscience 49 (1) E1-E10

Effects of physical exercise on executive functions of individuals with schizophrenia spectrum disorders: protocol for a systematic review and meta-analysis

Perez-Romero N et al
PLoS One 19 (1) e0295273

Self-harm and Suicide

The art of medicine – Storying of self-harm

Heney V
Lancet 403 (10428) 720-721

Mixed method examination of alcohol and suicidality among actively suicidal adults who engage in heavy episodic drinking

Gilmore A et al
Addictive Behaviors 151 (Apr) 107938

Non-pharmacological interventions for preventing suicide attempts: a systematic review and network meta-analysis

Hu F et al
Asian Journal of Psychiatry 93 (Mar) 103913

Associations between humiliation, shame, self-harm and suicidality among adolescents and young adults: a systematic review

Sadath A et al
PLoS One 19 (2) e0292691

Communicating distress: suicide threats/gestures among clinical and community youth

Robinson K et al
European Child & Adolescent Psychiatry 32 (8) 1497-1506

Sleep health/Disorders

Sexual minorities and sleep health: How does discrimination and stigma influence a sleep disorder diagnosis

Segovia M et al
Sleep Health 10 (1) 41-47

The association of sleep with physical and mental health among people experiencing homelessness

Huynh N et al
Sleep Health 10 (1) 48-53

Somnambulism

Somnambulism, also referred to as sleepwalking (SW), is a condition characterized by a variety of abnormal paroxysmal behaviors during sleep, resulting in walking with an altered state of consciousness and impaired judgment.

Cordani R et al
Sleep Medicine Clinics 19 (1) 43-54

Sleep Terrors

Irfan M
Sleep Medicine Clinics 19 (1) 63-70

Trauma-associated sleep disorder

Barone D
Sleep Medicine Clinics 19 (1) 93-99

Exploding head syndrome: a systematic scoping review

Fortune D, Richards H
Sleep Medicine Clinics 19 (1) 121-142

Therapies/OT in mental health

Single session of interpretation bias modification helped to improve fear of Covid-19 and Covid-19-related post-traumatic stress symptoms

Zhang F et al
BMJ Mental Health 27 (1) 300871

Estimating the effectiveness of an enhanced 'Improving Access to Psychological Therapies' (IAPT) service addressing the wider determinants of mental health: a real-world evaluation

Frank de Vocht et al
BMJ Open 14 (1) IAPT

Mindfulness-based stress reduction compared with cognitive behavioral therapy to improve sleep and mental health in university students with insomnia

Vezina A et al
Sleep Medicine 115 (Mar) 183

Assessing the effectiveness of ChatGPT in delivering mental health support: a qualitative study

Fahad A
Journal of Multidisciplinary Healthcare 17 (2024) 461-471

Veterans and Mental Health

Mental health treatment utilization among Gulf War era veterans with probably alcohol use disorder

Aurora P et al

Journal of Substance Use & Addiction Treatment 160 (2024) 209295

Challenges of living with veterans with post-traumatic stress disorder from the perspective of spouses: a qualitative content analysis study

Maddah Z et al

BMC Psychiatry 24 (1) 1-14

What now? Experiences of VHA patients following disclosure of suicidal ideation in primary care and mental health settings

Newell S et al

General Hospital Psychiatry 87 (2024) 7-12

Factors that influence mental health service use among female partners of posttraumatic stress disorder-affected veterans

Beks T et al

Traumatology 30 (1) 6-16

Physical activity participation, quality of life and behavioral disorders for veterans with PTSD

McDonagh K et al

Therapeutic Recreation Journal 58 (1) 96-114
