A NHS OpenAthens username and password is required to view this journal. Please see the **Library Services** section below on how to register for a NHS OpenAthens account.

Articles

What's missing from the wound care toolbox?

As wound care experts across the globe, we have a shared responsibility to build the scientific foundation for the management of individuals with a wound, the prevention of wounds, and the dissemination of that information

Areas of nursing competence in acute wound care: A focus group study

Wound care is an essential part of registered nurses' work. However, previous studies have indicated that registered nurses have limited competence in this area. Studies have also highlighted the lack of consistent and standardised areas of competence for registered nurses providing wound care

Collegian 2022 29(1) 44-53

Establishing the benefits of digital consultation pathways in wound care

Telehealth technology is a 21st Century patient-centred approach to the delivery of healthcare services by health professionals. It is beneficial, where distance is a critical factor, as it uses technology-enabled devices to provide secure data and information sharin

Wounds UK 2021 17(4) 68-75

Best Practice and Guidelines

GOV.UK 2022

England rare diseases action plan

*In January 2021, the 4 nations of the United Kingdom published the **UK Rare Diseases Framework** outlining national priorities for improving the lives of those affected by rare conditions. One year on, in this first England Rare Diseases Action Plan, we report on progress made, and take a significant step forward in transforming the collective priorities of the UK Rare Diseases Framework into tangible and concrete act*

Sussex Health Knowledge and Libraries 2022

First aid for snakebites and any consensus on management (Literature Review)

This evidence search report includes guidance and studies on snakebite management in the last five years. The search focused on first aid and emergency care of snakebites.

Available from: Please email library.pilgrim@ulh.nhs.uk

Cochrane Library 2021

Injection sclerotherapy for varicose veins (Review)

Varicose veins are enlarged and tortuous veins, affecting up to one-third of the world's population. They can be a cause of chronic venous insufficiency, which is characterised by oedema, pigmentation, eczema, lipodermatosclerosis, atrophie blanche, and healed or active venous ulcers.
