Articles

Medicine management: delegation, support and supervision

British Journal of Healthcare Assistants Vol. 18, No. 9 pp.336-342

This article explores the ways in which healthcare assistants (HCAs) and assistant practitioners (APs) must delegate, support and supervise the process of administering medicines.

The care certificate 4: equality and diversity

British Journal of Healthcare Assistants Vol. 18, No. 9 pp.355-360

This article provides an overview of what healthcare assistants need to understand about equality and diversity, the fourth standard of the care certificate.

Infection prevention and control: critical strategies for nursing practice

British Journal of Nursing Vol. 33, No. 17 pp. 804-811

This article explores IPC strategies, including hand hygiene, the use of personal protective equipment, environmental cleaning, safe injection practices, and antimicrobial stewardship. It discusses the implementation challenges and solutions, such as ensuring compliance through education, monitoring and strong leadership.

Statutory reform of the death certification process in England and Wales

British Journal of Nursing Vol. 33, No. 17 pp. 846-847

Richard Griffith, Senior Lecturer in Health Law at Swansea University, considers the reforms to the death certification process and discusses the statutory examination of all deaths not referred to the coroner by a medical examiner

GLP-1 receptor agonists and their role in managing type 2 diabetes

Practice Nursing Vol. 35, No. 9 pp. 309-316

This article provides guidance on how glucagon-like peptide-1 receptor agonists can be used in the management of type 2 diabetes.

How to remove non-absorbable sutures

Nursing Standard, 14th October 2024

Nurses undertaking suture removal must have the knowledge and skills to undertake the procedure safely and effectively and work within the limits of their competence.

The 10 'rights' of drug administration

Nursing Standard. 39, 10, pp. 31-32.

A checklist to help students avoid making medication errors and spot when a prescriber may have made a mistake

Yeasts: Thrush and beyond

Independent Nurse Vol. 2024, No. 10 pp. 6-8

Mark Greener looks at how yeasts have affected human health and history

Principles of medicine management: safe practice

British Journal of Healthcare Assistants Vol. 18, No. 10 pp. 392-397

This article, fourth in the series, will outline the safe administration of medicines, including the Skills and knowledge required by the healthcare assistant and assistant practitioner to safeguard patients using strategies such as the 9Rs to ensure medication safety. Adverse drug reactions and the importance of managing these effectively are discussed. The final aspect of the article considers the storage of medicines.

Clinical supervision experience of nurses in or transitioning to advanced practice: A systematic review

Journal of Advanced Nursing September 2024, Vol 80, 9, pp. 3547-3564

Aim: To systematically explore the clinical supervision (CS) experience for nurses transitioning to advanced practice.
