

# Nursing & Midwifery Bulletin

December 2022

## How to obtain an article

If you would like to request any of the latest articles included in this bulletin, or to be put onto the bulletin's distribution list, please contact Library and Knowledge Services at Pilgrim Hospital:

Tel: 01205 445272 or 333500 email: [library.pilgrim@ulh.nhs.uk](mailto:library.pilgrim@ulh.nhs.uk)

### New Books added to the library collection for loan

[Nursing Skills in Nutrition, Hydration and Elimination](#)

[Aromatherapy in Midwifery Practice](#)

[Leadership development for Nurses and Midwives](#)

[Introduction for research for midwives](#)

[Transcultural Midwifery Practice Concepts, Care and Challenges](#)

### Nursing

#### Understanding the role of genomics in nursing practice

This article aims to enhance nurses' understanding of genomics and explains its benefits in healthcare practice.

Nursing Standard, November 21<sup>st</sup> 2022

#### Faecal incontinence management in dementia patients

*This article will provide an overview of this condition and its causes. It will also provide policy and guidance on the subject, its general management, complications, the support available for carers, and the issue of faecal incontinence in someone who has dementia.*

British Journal of Community Nursing Vol. 27, No. 11 pp. 534-538

#### The basics of blood and associated disorders

*This article provides an overview of some of the blood's key components, blood cells and their formation and functions, blood groups and some of the problems that can arise from malfunctions.*

British Journal of Nursing Vol. 31, No. 21 pp. 1096-1102

#### Providing person-centred dementia care on general hospital wards

*This article discusses how nurses working on general hospital wards can enhance the experiences of people with dementia and improve their outcomes by providing person-centred care.*

Nursing Standard, December 12<sup>th</sup> 2022

### [What a legal ban on smacking means for nurses](#)

*Laws on physically punishing children vary across the UK. Find out how this affects your practice, and how to respond if you see a child being smacked by an adult*  
*Smacking a child as a form of punishment or to control their behaviour is a controversial issue, which divides public opinion.*  
Nursing Standard. 37, 12, pp. 24-25

## **Midwifery**

### [A guide to neonatal rashes](#)

*In this short article, we provide some practical advice about how to approach a baby with a rash. We present a systematic approach which will aid diagnosis and management of neonatal dermatological diseases.*  
Paediatrics and Child Health, (Article in Press) 2022

### [Better maternity care pathways in pregnancies after stillbirth or neonatal death: a feasibility study](#)

Around 1 in 150 babies are stillborn or die in the first month of life in the UK. Most women conceive again, and subsequent pregnancies are often characterised by feelings of stress and anxiety, persisting beyond the birth.  
BMC Pregnancy and Childbirth (2022) 22(1): pp.1-14.

### [Making maternity and neonatal care personalised in the COVID-19 pandemic: Results from the Babies Born Better survey in the UK and the Netherlands](#)

*To examine women's birth experiences during the COVID-19 pandemic and to compare the experiences of women who gave birth in the United Kingdom (UK) or the Netherlands (NL) either before or during the pandemic.*  
.PLoS ONE, 11/30/2022, Vol. 17 Issue 11, p1-16

### [Training on cultural competency for perinatal mental health peer supporters](#)

*This study's aim was to evaluate a training package combining perinatal mental health and the impact of migration to enable better support for women from ethnic minorities with perinatal mental ill health.*  
British Journal of Midwifery Vol. 30, No. 12 pp. 668-676

### [Case Study: A critical analysis of a tripartite clinical decision involving a student, midwife and client](#)

*The critical reflection presented in this article reviews the clinical decision making process within a personal midwifery case-decision, focusing on the hypothetico-deductive and dual processing models involving a midwife, student midwife and woman, Lucy (pseudonym) (Elstein and Schwarz, 2002; Jefford et al, 2011; Kahneman, 2011).*  
British Journal of Midwifery Vol 30, Issue 12 pp. 706-712

### [WHO advises immediate skin to skin care for survival of small and preterm babies](#)

WHO has launched [new guidelines](#) to improve survival and health outcomes for babies born early (before 37 weeks of pregnancy) or small (under 2.5kg at birth).  
WHO, 15<sup>th</sup> November 2022

## **The Royal Marsden Manual Online**

The [Royal Marsden Manual Online](https://openathens.nice.org.uk/) is available to all NHS Staff with an NHS Open Athens account. If you do not have a NHS OpenAthens account then you can self-register for one at: <https://openathens.nice.org.uk/>

### **Library services**

<https://www.nhslincslibrary.uk/>

### **KnowledgeShare**

Sign up to KnowledgeShare and we will send out regular emails alerting you to the latest evidence on a particular topic. To sign up, please click on the following link

<https://www.nhslincslibrary.uk/knowledgeshare-request/>

### **Evidence Searching Training**

If you need evidence we can provide training on how to search the healthcare databases and resources. We can also show you how to appraise the information that you find. To book a training sessions please contact [clinical.libarian@ulh.nhs.uk](mailto:clinical.libarian@ulh.nhs.uk). More information can be found at

<https://www.nhslincslibrary.uk/page/training/>

### **Online resources**

**BMJ Best Practice** is available to all NHS staff. This clinical decision support tool provides step-by-step guidance on diagnosis, prognosis, treatment and prevention of a wide variety of conditions.

<https://bestpractice.bmj.com/oafed>

**ClinicalKey** is a database which supports healthcare professionals by providing access to the latest evidence across specialties.
