

# Nursing & Midwifery Bulletin

May 2022

## How to obtain an article

If you would like to request any of the latest articles included in this bulletin, or to be put onto the bulletin's distribution list, please contact Library and Knowledge Services at Pilgrim Hospital:

Tel: 01205 445272 or 333500 email: [library.pilgrim@ulh.nhs.uk](mailto:library.pilgrim@ulh.nhs.uk)

## Nursing

### Retinal detachment

*Retinal detachment describes an emergency situation in which a thin layer of tissue (this is the retina) at the back of the eye pulls away from its normal position: it becomes detached.*  
British Journal of Healthcare Assistants 16, No. 5 pp. 236-241

### Renal and ureteric stones: a clinical review

*This clinical review on renal and ureteric stones discusses how stones form, the incidence, risks, and complications associated with calculi.*  
British Journal of Nursing 31, No. 9 pp. S14-S22

### Self-harm and suicide: occurrence, risk assessment and management for general nurses

*This article explains the relationship between suicide, self-harm and other risk factors. It also provides guidance for general nurses on evidence-based approaches to managing self-harm and assessing suicide risk collaboratively with service users.*  
Nursing Standard, May 3<sup>rd</sup> 2022

### Professionalism in nursing 1: how to develop professional values

*This article explores the professional values in nursing and is the first article in a six-part series for student nurses that explores professionalism*  
Nursing Times 118, No 4 pp. 28-31

### Professionalism in nursing 2: working as part of a team

*This article, the second in a series on professionalism in nursing, outlines how nurses form part of a team and explores how they can improve teamworking skills.*  
Nursing Times, 118 No.5 pp.27-30

## Midwifery

### Birthwrite: The infant microbiome

*Kate Nash and Debra Sloam consider preventive and restorative strategies required to support the infant microbiome, and the midwife's role in relation to this*  
British Journal of Midwifery 30, No. 5 pp. 246-247

### [Raising awareness of cytomegalovirus](#)

*Sharon Wood, who works for the charity CMV Action, discusses cytomegalovirus, a common but often unknown risk during pregnancy*  
British Journal of Midwifery 30, No. 5 pp. 248-249

### [Third stage of labour management approaches and postpartum haemorrhage in midwife-led units](#)

*To examine the relationship between third stage of labour management approaches, and incidence of postpartum haemorrhage and severe postpartum haemorrhage in women birthing in midwife-led units.*  
British Journal of Midwifery 30, No. 5 pp. 250-256

### [The nutritional needs of moderate–late preterm infants](#)

*This article discusses the nutritional needs of moderate and late preterm infants (born between 32+0weeks and 36+6weeks' gestation) and makes recommendations for best practice both while these infants are in hospital and when they are discharged into the community.*  
British Journal of Hospital Medicine 83, No. 4 pp. 1-9

### [GARDP Neonatal Sepsis Study Report 2022](#)

*GARDP is working to develop new and improved antibiotics to treat drug-resistant infections in children and babies. This report highlights the findings of a global neonatal sepsis observational study carried out by GARDP and partners at 19 hospitals in 11 countries from 2018 to 2020.*

## **The Royal Marsden Manual Online**

The [Royal Marsden Manual Online](#) is available to all NHS Staff with an NHS Open Athens account. If you do not have a NHS OpenAthens account then you can self-register for one at: <https://openathens.nice.org.uk/>

### **Library services**

**<https://www.nhslincslibrary.uk/>**

### **KnowledgeShare**

Sign up to KnowledgeShare and we will send out regular emails alerting you to the latest evidence on a particular topic. To sign up, please click on the following link  
<https://www.nhslincslibrary.uk/knowledgeshare-request/>

### **Evidence Searching Training**

If you need evidence we can provide training on how to search the healthcare databases and resources. We can also show you how to appraise the information that you find. To book a training sessions please contact [clinical.libarian@ulh.nhs.uk](mailto:clinical.libarian@ulh.nhs.uk). More information can be found at <https://www.nhslincslibrary.uk/page/training/>

## Online resources

**BMJ Best Practice** is available to all NHS staff. This clinical decision support tool provides step-by-step guidance on diagnosis, prognosis, treatment and prevention of a wide variety of conditions.

<https://bestpractice.bmj.com/oafed>

**ClinicalKey** is a database which supports healthcare professionals by providing access to the latest evidence across specialties.
