Learning about asthma through play: A nurse's guide

Heather Henry explains how asthma technique can be made more accessible to children
Independent Nurse Volume 2023, 3 pp. 12-14 Mar 2023

Shared decision-making for children with medical complexity in community health services: a scoping review

Children with medical complexity is an increasing population whose parents and healthcare providers face multiple decisions.
BMJ Paediatrics Open 2023; 7 Mar

Invasive bacterial infection in children with fever and petechial rash in the emergency department: a national prospective observational study

To determine the incidence and clinical predictors of invasive bacterial infection (IBI) in well-appearing children who present to the emergency department (ED) with fever and petechiae.
Archives of Disease in Childhood Published Online First: 04 April 2023

How to use the Bristol Stool Chart in childhood constipation

Constipation in children is common and is a frequent cause for healthcare attendances in both primary and secondary care. The Bristol Stool Chart has become ubiquitous as an aid in the diagnosis and treatment of constipation, but many clinicians may not be aware of its origins or strengths and weaknesses. In this article, we outline the history and rationale behind the development of the Bristol Stool Chart and how it should be used in childhood constipation.

Archives of Disease in Childhood - Education and Practice Published Online First: 27 September 2022.

[Handling parental disagreements](#)

A common query to the Medical Protection advice line is how to manage requests for medical information about a child with separated parents. Dr Heidi Mounsey sets out some underlying principles that are usually applicable to most cases.

Practice Management Volume 33, Issue 3 pp. 30-36 March 2023

[Habit cough in children](#)

This short article is aimed at healthcare professionals working with children and gives practical advice about investigation and management of suspected habit cough in children and young people.

Paediatrics and Child Health, 2023-04-01, 33, Issue 4, Pages 104-109

[The infant with rectal bleeding](#)

This article discusses common and rarer but not to be missed causes of rectal bleeding in infants and their immediate management. The aim is to provide a guide for the general paediatrician.

Paediatrics and Child Health, 2023-04-01, 33, Issue 4, Pages 110-113

[Investigation and management of stridor in neonates](#)

This article is aimed at the whole team who will be involved in dealing with babies with stridor, including anaesthetists, paediatricians, advanced care practitioners and ENT doctors.

Paediatrics and Child Health, 2023-04-01, 33, Issue 4, Pages 91-96

[Impact of human coronavirus infections on paediatric patients at a tertiary paediatric hospital: a retrospective study of the prepandemic era](#)

A retrospective review was undertaken of all encounters of children with known HCoV infection at a tertiary paediatric hospital from January 2015 to January 2018.

Journal of Hospital Infection 134 (2023) 27e34

[Adenoid hypertrophy in children: a narrative review of pathogenesis and clinical relevance](#)

The aim of this review is to summarise the current knowledge of adenoid hypertrophy in children and associated diseases. Adenoid hypertrophy has many clinical manifestations that are frequent in the paediatric population and is accompanied by various comorbidities
