Articles

[Educating nurses caring for paediatric inflammatory bowel disease patients receiving biologics: the impact of a virtual event](#)

This study highlighted the need for interprofessional education for nurses caring for paediatric inflammatory bowel disease patients, particularly where care is delivered in district general hospitals.

Gastrointestinal Nursing Vol. 21, No. 5 pp. 24-30

[Management of excessive weight gain in childhood](#)

This article provides an overview of managing excess weight gain in childhood considering aetiology, assessment, lifestyle, pharmacological and surgical interventions, and potential complications.

Paediatrics and Child Health, 2023-07-01, Volume 33, Issue 7, Pages 189-198,

[Acute musculoskeletal infection in children: assessment and management](#)

Orthopaedic and paediatric services are likely to encounter cases of acute musculoskeletal infection in children and thus an awareness and thorough understanding of the British Orthopaedic Association Standards for Trauma guidelines is essential.

British Journal of Hospital Medicine Vol. 84, No. 6 pp. 1-6

[Staff competence in caring for LGBTQ+ patients in the paediatric emergency department](#)

This study aimed to assess the competency of paediatric emergency department (PED) multidisciplinary staff in caring for LGBTQ+ adolescents

Archives of Disease in Childhood 2023, 108:pp.525-529

[For children admitted to hospital, what interventions improve medication safety on ward rounds? A systematic review](#)

There is a need to understand what strategies can improve medication safety on ward rounds. We systematically reviewed published interventions to improve prescribing and safety of medicines on ward rounds.

Archives of Disease in Childhood 2023, 108:pp.583-588.

[Paediatric headache management: comparing secondary general paediatric clinics to a tertiary paediatric neurology clinic, using national quality standards](#)

The aim of this study was to compare the management of children and young people referred for headache to secondary general paediatrics care, with those seen in a tertiary children's neurology headache clinic at the same hospital.

BMJ Paediatrics Open; 7 (1) July 2023: e001956

[Managing infant and child skincare](#)

This article explores the evidence on general skincare from the newborn period to the treatment and management of common skin conditions, including atopic eczema and seborrheic dermatitis.

Journal of Prescribing Practice Vol. 5, No. 7 pp. 298-304

[Primary ciliary dyskinesia: what the general paediatrician needs to know](#)

Paediatrics and Child Health, 2023-07-01, Vol 33, 7, pp. 216-220

[Precision decisions: tailoring decision sharing in contemporary paediatric Healthcare](#)

Archives of Disease in Childhood 2023 108: pp.593-594.

[Joint consensus statement on the vaccination of adult and paediatric haematopoietic stem cell transplant recipients: Prepared on behalf of the British society of blood and marrow transplantation and cellular therapy \(BSBMTCT\), the Children's cancer and Leukaemia Group \(CCLG\), and British Infection Association \(BIA\)](#)

Journal of Infection 86 January (2023) pp.1–8 (pub 14th November 2022)

[Safe and Effective Repatriation of Infants](#)

[Repatriation of Infants FINAL_060623.pdf \(hubble-live-assets.s3.amazonaws.com\)](#)

A BAPM Framework for Practice, June 2023
