

Respiratory Care Bulletin

September 2026

The aim of this current awareness bulletin is to provide a digest of recent guidelines, reports, research and best practice in respiratory care in the NHS.

If you would like to request any of the articles included in this bulletin please email:
ulth.nhslincslibrary.request@nhs.net

If you would like to receive this or any of our other bulletins please register here:
<https://www.nhslincslibrary.uk/bulletin-request-form>

For more information on Library and Knowledge Services please go to: www.nhslincslibrary.uk

Smoking Cessation / Vaping >>>[Back to Contents](#)

Have we kicked the habit? The rise of youth vaping and the next phase of tobacco control

Smoking among young adults has fallen dramatically over the last decade and that success deserves recognition. In 2000 around a third of 16–24-year-olds were active smokers in England. By 2024 that figure had fallen to just 8.6%, the largest decline of any adult age group. See [here](#).
