

Tissue Viability Bulletin

January 2026

The aim of this current awareness bulletin is to provide a digest of recent articles and guidelines on Tissue Viability.

If you would like to request any of the articles included in this bulletin, or to be put onto the distribution list, please contact ulth.library.grantham@nhs.net

Access the Journal of Wound Care and Journal of Tissue Viability online at the [NHS Knowledge and Library Hub](#)

‘Made Easy’ series – available from Wounds UK
[Made Easy – Wounds UK](#)

**There is a Stoma Care Supplement in the British Journal of Nursing.
You can request any or all of the articles in this supplement.**

A year of hard work and challenges in stoma care

Natasha Rolls
BJN 34 (22) S3

Developing stoma clinical nurse specialists across levels of practice

Maddie White
BJN 34 (22) S4-S6

Sexual health, sexuality and living with a stoma

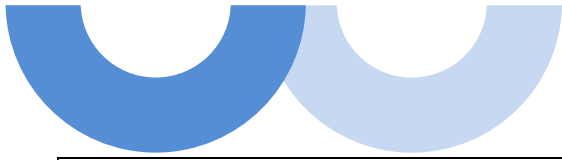

Angie Perrin and Jennie Burch
BJN 34 (22) S8-S13

Managing chemotherapy-induced complications in patients with stomas

Petya Marinova and Rali Marinova
BJN 34 (22) S14-S22

Multicomponent reduced compression therapy and TLC-NOSF dressings in leg ulcers with or without arterial component

Rial R et al
Journal of Wound Care 35 (1) 4-14

Microbiological characteristics and risk factors for multidrug-resistant organism infections in diabetic foot ulcer

Bao Y et al

Journal of Wound Care 35(1)59-67

A multidisciplinary approach for diabetic foot ulcer management: soft tissue reconstruction and preventive strategies

Feng J et al

Journal of Lower Limb Wound Care 1(1) a multidisciplinary approach

Pressure injury prevention practices in critical care settings: an evaluation of the Stop Pressure Injury Development and Eliminate Risk (SPIDER) project

Bassam Alshahrani et al

Journal of Wound Care 35 (1) 110-120

Caring beyond the wound: managing malignant wounds to enhance quality of life

Dhooonmoon L

Journal of Wound Care 35 (1) 3

Comparative analyses of cyanoacrylates for barrier protection and incontinence related wash-off resistance

Pradhan M et al

International Wound Journal 23 (1) e70807

Detection of hypergranulation tissue in chronic wound images using artificial intelligence algorithms

Reifs D et al

Wound Repair and Regeneration 34 (2026) e70125

Substance based medical device in wound care: bridging regulatory clarity and therapeutic innovation

Ianev D et al

Polymers 18 (1) 129

The impact of smartphone-based wound follow-up on surgical site infection detection: a quasi-experimental study

Khani P et al

American Journal of Infection 54 (1) 55-59

Design and development of an mHealth application for pressure ulcer care and caregiver support

Jogi S et al

Frontiers in Digital Health 7 (2025) 1694486

A decade of global research activity in pressure ulcer science: a survey of publication patterns (2015-2024)

Tan Y et al

Journal of Wound Care 34 (12) 1007-1012

Topical ozone as an adjuvant therapy in wound management: an integrative review

Pinto C et al

Nursing Reports 15 (12) 414

Bee products and traditional plant therapies for wound care: a comprehensive review of scientific evidence and clinical applications

Rawwash A et al

Journal of Pharmacopuncture 28 (4) 255-268

Traditional and complementary practices in wound care: a cross-sectional study based on nursing students' observations

Burak Ramazan Kartal et al

Sakarya University Journal of Holistic Health 8 (3) 179-189

AI vs MD: benchmarking ChatGPT and Gemini for complex wound management

Corradini L et al

Journal of Clinical Medicine 14 (24) 8825

Managing malodorous wounds in the community using a structured approach for practice

Stephen-Haynes J

British Journal of Community Nursing 30 (Suppl 12) S22-S30
